

Press Release

Zürich, 24th October 2011

fundinfo launches new KIID Dissemination Service

fundinfo is proud to announce the launch of its new platform for **KIID Dissemination** <http://kiid.fundinfo.com/en/home/>.

For fund providers who wish to send KIIDs to their distribution partners **in all EU countries**, from now on fundinfo offers dispatch via the new platform kiid.fundinfo.com. Here, fund providers may choose whether to create **own distribution lists** — whereby they decide which distribution partners receive the KIIDs for which funds and in which language — or allow their distribution partners to subscribe to the KIIDs themselves. kiid.fundinfo.com is a platform accessible exclusively to fund providers and their registered distributors and will include a **compliance tracking tool** for storage and retrieval of KIID transmission and receipt protocols.

Commenting on the new service, Jan Giller, Partner and Head Marketing & Sales of fundinfo, said: “With the new service, fundinfo has extended its comprehensive fund document dissemination services and therefore is strengthening its position as leading hub for original fund documents in Europe and Asia.”

About fundinfo.com

fundinfo.com is the leading international platform for fund information and mandatory fund publications. fundinfo provides free access to over 1.5 Million documents, fund data, fund manager videos and ratings of more than 700 fund providers. Furthermore, fundinfo is recognised by numerous financial market supervisory authorities for the mandatory publication of fund prices, tax data and legal announcements. fundinfo AG was founded in 2005 and is based in Switzerland.
