

# UBS commissions fundinfo for fund data procurement

Dec 6, 2017

## Cooperation between fundinfo and UBS for fund data management

UBS and its group company Fondcenter have commissioned fundinfo to procure and source fund data from fund providers and asset managers.

In order to provide efficient, legally compliant investment advice, UBS Fondcenter's external and internal partners require ondemand access to complete, accurate and up-to-date fund information, including MiFID II and PRIIPs data.

Says Christophe Hefti, head UBS Fondcenter at UBS Asset Management. "By partnering with fundinfo, we can concentrate on our core competencies and expand our range of services, including data preparation. At the same time, we are providing fund providers with an experienced partner for high-quality fund data and document management."

We would like to hear any feedback or suggestions you have – either on this content, or on what you would like to see us produce going forward. Plus – we want to hear about your news and any interesting developments at your firm.
