Zurich-based fund platform fundinfo and UBS Fondcenter have started a new partnership, the firms have announced.

Fundinfo will now source data from fund providers and asset managers for UBS. This will enable UBS Fondcenter to deliver complete and up-to-date fund information to clients, in particular regarding MiFID II and Packaged retail and insurance-based investment products regulation (Priips) data.

Commenting on the co-operation, Christophe Hefti, head of UBS Fondcenter, said fundinfo has years of experience in the procurement, validation and distribution of fund information that matches UBS' requirements.

'By partnering with fundinfo, we can concentrate on our core competencies and expand our range of services, including data preparation.

'At the same time, we are providing fund providers with an experienced partner for

**high-quality fund data and document management.**

Fundinfo has already been working with UBS Fondcenter for many years in fund document management.

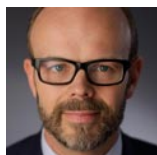

This new partnership comes shortly after fundinfo [launched](#) a MiFID II Target Market service for fund distributors.
